

Santa Monica

13 June 1966

Dear Dan

I have just returned to the motel from a two hour visit with Carol, Robert and Mary. Delivered the cross bar, arrows, doll, purse, ear rings + silk bag, and went thru all the pictures (except the ones of Germaine + Lien - which I removed beforehand). Also described (as clearly as possible) the type of life you are leading and how safe and comfortable it is in Saigon. The kids just finished school last week - and both Robert and Mary won athletic awards.

Reached Denver on 31 May - found a message waiting to get to D.C. immediately. Flew in on 1 June - and stayed until evening of 4 June - with appointments taking up nearly every moment. Called or saw all your friends except the Catholic virgin - and spent an hour with Raven (showed him the pictures) and with Gutheiser. Spent a couple of hours with Hoffman - and also

a couple of hours with Kauer and Ambassador  
Cimbrant. (Incidentally, a friend of  
yours from ROND, Chuck Cooper, is going to  
work with Kauer for six months - beginning  
Monday. Took Yvonne out to dinner - she  
has a real care on you - and a real  
hard on for Patricia - had found out you  
were in London with Pat - and was really  
pumping me for details. I played stupid  
and gave her my "opinion" that you still  
considered Yvonne tops - but that you were  
so happy to be free that you didn't  
want to get committed to anyone.

Couldn't reach Patricia in Washington or New  
York until I got back to Denver.  
Then I found out that she plans to  
be in Saigon the end of June. In  
the meantime, in Washington, I had  
urged everyone to call you back over  
consultation - and several are planning to  
ask for you in July.

Had an interesting two hour session  
with Unger, Colby (CIA), Post, & Stevenson.  
Really laid it on the line with the

cadre program - to the great shock of  
Colby. Kerner, incidentally, told Rosta he  
was much impressed with my two hour  
session with him - which in turn im-  
pressed Rosta. Partly as a result of that -  
I think I swung the balance with  
Rosta & Staveman on naming Len Haywood as  
the AD/PO - despite Mann's preference for  
someone else.

Had an interesting hour with Joan  
Roberts today at RONA Corporation - showed  
her your pictures - arranged for the belt  
transfer, and delivered the purse and the  
black print. She also has 2 case on  
you.

Got roped in to two days at RONA  
in 2 symposium being conducted by  
Charlie Wolf - it lasts 5 days - but I  
could only agree to 2 - also go to  
SF on Thursday for 2 reciprocity dinner -  
then to Seattle Friday for same thing.  
Drive family back to Denver Sat & Sunday - fly  
out to Ft Collins on Monday - in to Boulder on Tuesday,  
Spring on Sat, 20th. See you then - Best - John
